Mikaela Ward

Email: mikaelaward10@gmail.com

Summary

Hello, my name is Mikaela I am currently re-entering the work force after a break to relocate to Albury Wodonga and complete full-time study. I am looking for entry level roles in either the information technology or cyber security industry. I'm open to relocating to Melbourne or Canberra for work opportunities. I'm also open to part time in Albury that fits my current work experience. I hope to be able to join a fun and engaging team. Please contact me if you think I could be a possibility for your role, I am happy to answer any questions.

Key Skills

Customer Service, Attention to detail, communication, recording data,

Career History

Laboratory Technician at Randstad

Aug 2022 - Aug 2023

> Working within a small team I regularly used a microscope to differentiate between insect samples. Recording the results and escalating to the manager as needed. This involved working in pairs when workloads increased to ensure we met deadlines to report data to other teams to ensure the project overall ran smoothly.

Water Quality Technician at Tassal (Proserpine)

> Nov 2021 - Apr 2022
>
> Completed seasonal Shift work helping to ensure the health and quality of prawns. The roles involved performing routine water monitoring, sampling and microscope work. As well as data recording and equipment calibration.

Customer Service Representative at Kingpin

April 2021- Oct 2021

I worked within the arcade team making sure that games ran smoothly and the kiosk remained stock. I also worked shifts running the escape rooms and was responsible for resetting the rooms and engaging with customers to make sure their day was super fun. This involved engaging 4-8 adults and getting the excited for the escape room and gauging when they needed help over the intercom.

Other Customer Service jobs

At other Customer service jobs, I learnt a variety of skills from money handling, working with a variety of coworkers, cleaning and time management.
